Thanks Ken. Let's get a Great Bay briefing set up for the week of the 22nd. Alex is going to need a deep dive for situational awareness for the upcoming HQ visit.

Subject: Call from Clark Freise yesterday

Governor is meeting with the Commissioner this Friday on Great Bay: MS4 concerns and Rochester permit. They wanted to give us a heads up. There may be concerns raised about the timeliness of our responses on WQS and 303d lists:

- NH submitted WQS in Dec 2016; some back and forth but not sent to DC yet
- 2014 303d list submitted late March and we haven't met 60 day review time
- 2016 303d list submitted in December

I know that there are good reasons why we haven't approved their standards and lists. Can you get me and Alex some background and an update on all of these today? Also, can you get us a one pager on Rochester. I want to make sure she is prepared in case Bob Scott mentions it in a sidebar at CONEG on Thursday.

FYI...The Governor is focusing on the Great Bay communities because of their sway in his upcoming reelection bid. DES is going to push for a couple more people to support our joint MS4 education/outreach efforts.

Marilyn, please schedule a call next week for me with Clark to discuss PFAS. Include Meghan Cassidy.
